Description

Community project in Miro Village in Penacova.

The “Miro muito mais que um lugar” (Miro much more than a place) is a project developed from Grupo de Solidariedade Social, Desportivo, Cultural e Recreativo de Miro (Social Solidarity, Sport, Cultural and Recreative Group of Miro).

The aim is to support the social and community economy, showing the important paper of the community to preserve the rural areas. Since this area is extremely affected by the wildfires, to help in the prevention, the community grazing has emerged.

Man taking care of the community grazing

Goals

Management of a herd from the community to the community as a response to wildfires prevention and dynamization of the rural economy.

Activities

Community herd of sapper goats, to help clear the land around the village, and with this, to minimize the problem of forest fires, but also habitat management, landscape management and tourist attraction, through the dissemination of endogenous products, gastronomy and handicrafts.

Involvement of kids in the community grazing
